DEV HISTORY

FULL-STACK WEB DEVELOPER

2019 to Present

RHONE APPAREL

Member of an innovative team of developers in charge of creating and continuously improving an online Shopify store. Responsibilities include updating databases, working with designers to create stunning visuals, and coding new web app functionality to improve user experience.

- Responsible for the total restructuring of our product catalog, allowing us to overcome the 100 variant limit imposed by Shopify. This new structure:
 - Allowed full flexibility and customization with discount codes.
 - Drastically reduced the amount of time to list full priced items as sale items (from 2-3 days to 1-2 hours).
- Implemented a tiered discount system (greater discounts on higher cart value) that drastically reduced the amount of time spent on future coding. Helped to get +26% over sales target during Black Friday!
- Created easy to author components utilizing Contentful's CMS.
- Utilized Shopify checkout scripts to create easy, automatic discounts.
- Work in 2 week Sprints utilizing SCRUM or Agile processes.
- Ensure the website is responsive and looks good for both desktop and mobile devices.

EDUCATION

UNIVERSITY OF UTAH Utah Coding Bootcamp
Certificate of Completion - August 2019

SALT LAKE COMMUNITY COLLEGE A.B.A.

GPA 3.92 and Member of National Society of
Collegiate Scholars and Phi Theta Kappa Honor
Society - December 2017
